

Did you know Entresto® is?

- Your first choice in place of an ACEi and an ARB for your HFrEF patients
- The only one with a RAAS and neprilysin inhibition mechanism of action
- The only HFrEF treatment proven to reverse cardiac remodeling
- Proven to be safely administered in the In and Out-patient settings.

More than 42,000 Canadians are already benefiting from Entresto®.

What are you waiting for? Optimize your Class II and Class III HFrEF patients on Entresto®.
